

STEM Summer Camp: Python

Odd or Even?

Task: Write a program that asks for a number and then prints out whether it is odd or even.

Discussion: The program must run as follows:

```
$ python3 odd-even.py
Enter a number: 23
23 is an odd number!
$
```

```
$ python3 odd-even.py
Enter a number: 24
24 is an even number!
$
```
