

Stem Summer Camp: Python

Fibonacci Numbers w/ Loops

Purpose: After completing this assignment, you will be able to:

- Make use of Python loops
- Understand the different types of loops in Python

Task: Write a program that calculates the nth Fibonacci number by using a loop.

Discussion: The program must run as follows:

```
$ python fibLoop.py
Enter a number: 8
The 8th Fibonacci number is 21
$
```
