

STEM Summer Camp: Python

Dictionary of Names–SSNs

Task: Write a program that stores key-value pairs and prints them out. The key should be a person's name, and the value should be their SSN.

Discussion: The program must run as follows:

```
$ python3 dict-of-names-ssn.py
Bob 123-45-6789
Sue 987-65-4321
Jim 135-79-2468
Amy 246-80-1357
```
